

Dear Edison and Lincoln School families,

Ashland City School bus transportation is available for your child/students from their home school to Trinity Lutheran Church. The transportation from Edison and Lincoln Schools however, consists of three separate busses. This often seems like a lot for a child to sit through and remember when to switch busses. The Beacon After School Program has been given the opportunity to work with Trinity Lutheran Churches' Childcare program. The childcare is willing to let us use some of their extra space on their childcare bus to pick up students from Edison and Lincoln schools. The space is very limited and may change at any given time. If you feel like this is the route you would like to go with your child's transportation to Beacon please feel free to contact me (Amie Spieldenner) at 419-651-1607. I would be more than happy to explain availability to you and see what we can work out. Keep in mind that transportation is available through a city school bus and although it's a long trip, it will always be a consistent way of transportation. Trinity Lutheran Childcare bussing is simply an extra that is offered as long as space is available.

In Christ,

Amie Spieldenner

Director of the Beacon After School Program
